I had the worst experience with Octa Logo Web Design and when I explained my situation to BravaDesign, they did not hesitate to help me. With their help, I was able to have a running website again. They are honest and definitely recommended.

BravaDesign spent a great deal of time with our company working to understand our requirements and what we did. This helped make a great new website. Kash provided excellent support and help and even made time to give a tutorial to help us learn about managing the content. It was a great experience; the new website is great!

If you're starting a new business or upgrading an existing site, I strongly recommend using BravaDesign. They are friendly, knowledgeable, and dedicated to producing a high quality product. BravaDesign worked very hard to create my site in a very short period of time. Reasonable pricing and outstanding customer service. Thanks again for your hard work. I will recommend you to all my friends. Great job Bravadesign!!!

We were looking to refresh our website, logo and online image to really reflect our true passion for entrepreneurs and growing our small business. We are very excited about our new site. From the beginning, Bravadesign took the time to really understand our business model and market to strategically direct us on everything from design to content creation and graphics. we highly recommend them and look forward to continued success in working with them.

The website they did came out exactly the way I had hoped it would, and at a really reasonable price for a new startup company. Thanks Kash!

Before I met Kash, I have worked with few web developers, but my experience has always been that of disappointment until I met Kash. His sensitivity to client's needs and creativity in web design are outstanding. Communication throughout the process was second to none. Quality and affordability are parts of what make Kash and his company very outstanding. He is the guy for my next project and I will recommend him to everyone without any reservation. Thank you Kash and Thank you BravaDesign. Jones@great mother heart.
